Subject: update

Dear Jim,

We have never received an email to explain how the email addresses were attained!

Since our last correspondence we have learned there were 5 sewer spills on May 6, 2013. They occurred at: waste water treatment plant #2, waste water treatment plant #3, the new lift station we just paid for in the rate increase #3 on Point Clear Drive, Manhole B36 on Bon Villa Way, and Manhole B51 on Manawa. I will not quote the number of gallons as they are never estimated correctly.

The Tega Cay Water Advisory Council will meet today to plan our next steps. Thank you for all you do to support our efforts to get clean water in our homes and lake.

Linda
